WATER SAVING TIPS

Mulch plants to help them retain water	Use a rain barrel to gather rainwater	Soak pots and pans rather than letting water run	Compost rather than use garbage disposal
Turn off the water while washing your hands	Wash clothes in cold water	Join a community pool rather than installing one	Limit showers to 5 minutes
Turn off the faucet while brushing your teeth	Use a refillable water bottle rather than multiple drinking glasses each day	Wash fruits and vegetables over a pan to collect water	Fix leaks as soon as they are discovered
Take a shower rather than a bath	Cook food in as little water as possible	Run your dishwasher only when full	Don't let the water run while shaving
Collect running water while waiting for it to heat up and use on plants or lawn	Scrape dishes rather than rinsing before washing	Add a nozzle to your hose to control flow	Install a low flow shower head
